RAZE & REPLACE:
THE PEOPLE’S PLAN TO REIMAGINE ATLANTA

After months of community engagement sessions, abolitionist architects at Designing Justice + Designing Spaces put forward 4 possible design plans to replace the Atlanta City Detention Center with a Center for Equity, Wellness & Freedom.

While the proposals collected dust at City Hall, the people of Atlanta put it to a vote.

91% OF ATLANTANS VOTED FOR OPTIONS THAT WOULD RAZE THE ATLANTA CITY DETENTION CENTER AND REPLACE IT WITH ONE OR MORE CENTERS FOR WELLNESS, EQUITY & FREEDOM

“The jail building must be made into something that can no longer be repurposed as a jail in the future.”

[The Distributed Equity design] brings investment into those communities. That is what equity is about - redistributing resources where they are most needed and shifting power to the hands of communities.
